

**EDESIX BODY WORN CAMERAS
VIDEOTAG VT-50**

VIDEOTAG VT-50

The **VideoTag VT-50** incident recorder is the latest in Body Worn Camera solutions from Edesix. Designed to complement your overarching security function, this light-weight, discreet and easy to use camera can be worn as part of staff uniform, ready to record at a moment's notice.

Intended for less frequent use than our VideoBadge range of Body Worn Cameras, the VT-50 requires minimal attention from staff. With the ability to operate on standby mode for up to six months, and to automatically offload or stream footage when an incident is recorded, the VT-50 is perfect for retail, airline and hospitality staff.

■ SMALL AND LIGHTWEIGHT

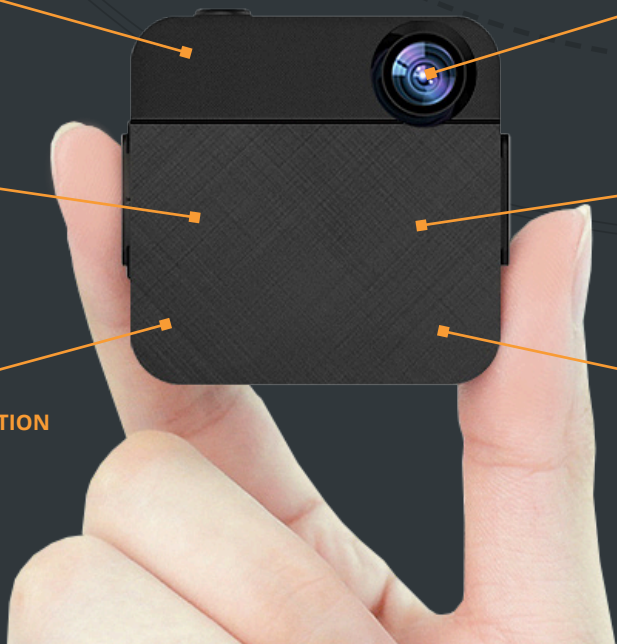

■ HIGH QUALITY RECORDING

■ STREAMING

■ WIFI ENABLED

■ EASY OPERATION

■ DURABLE

"The indisputable evidence captured by a VideoTag is perfect for incident management and response".

WHY USE A VIDEOTAG VT-50?

It's lightweight, unobtrusive, streams live footage, is easy to use and requires no training.

Provides complementary audio and video capture of incidents when utilised as part of a larger Body Worn Camera and CCTV security function.

When used independently, the VT-50 protects staff, deters aggression and captures evidential-quality footage for prosecution when required.

Integrates seamlessly with VideoManager and leading CCTV Video Management Systems via ONStream our camera streaming Gateway software, meaning captured footage can be instantly shared and viewed by security staff.

Its six month stand-by battery-life means your staff don't need to worry about charging the device often - the VT-50 is simply part of your uniform.

RFID

Capable of assignment via RFID, meaning staff simply use their own ID cards to access a VideoTag which will be assigned to them during use.

By allocating VideoTag cameras throughout your organisation, in the case of a large-scale incident, real-time footage from multiple view-points can be accessed and reviewed.

HOW TO USE A VIDEOTAG VT-50

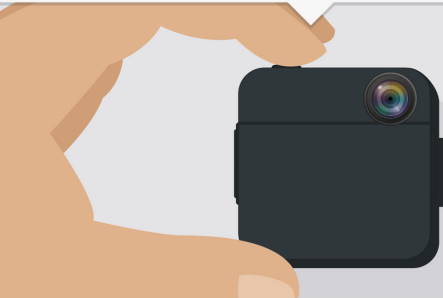

RFID ASSIGNED

Simply RFID assign your VT-50 at the beginning of your working shift.

SMALL & LIGHTWEIGHT

Wear your VT-50 as part of your uniform or ID daily.

EASY OPERATION

Simply press record at any time to action up to 2 hours of footage or 1 hour of live streaming & recording.

WIFI ENABLED

Stream or offload footage for evidential use or further action.

DOCK TO CHARGE

Simply dock the VT-50 to enable charge.
