

VIDEOTAG VT-50 & VT-50-XLR

TECHNICAL SPECIFICATIONS

The VideoTag VT-50 is an incident recording device from Edesix, specifically designed to meet the needs of public facing businesses and security functions.

The VT-50 is available with straightforward device management and simplified integration to video management systems.

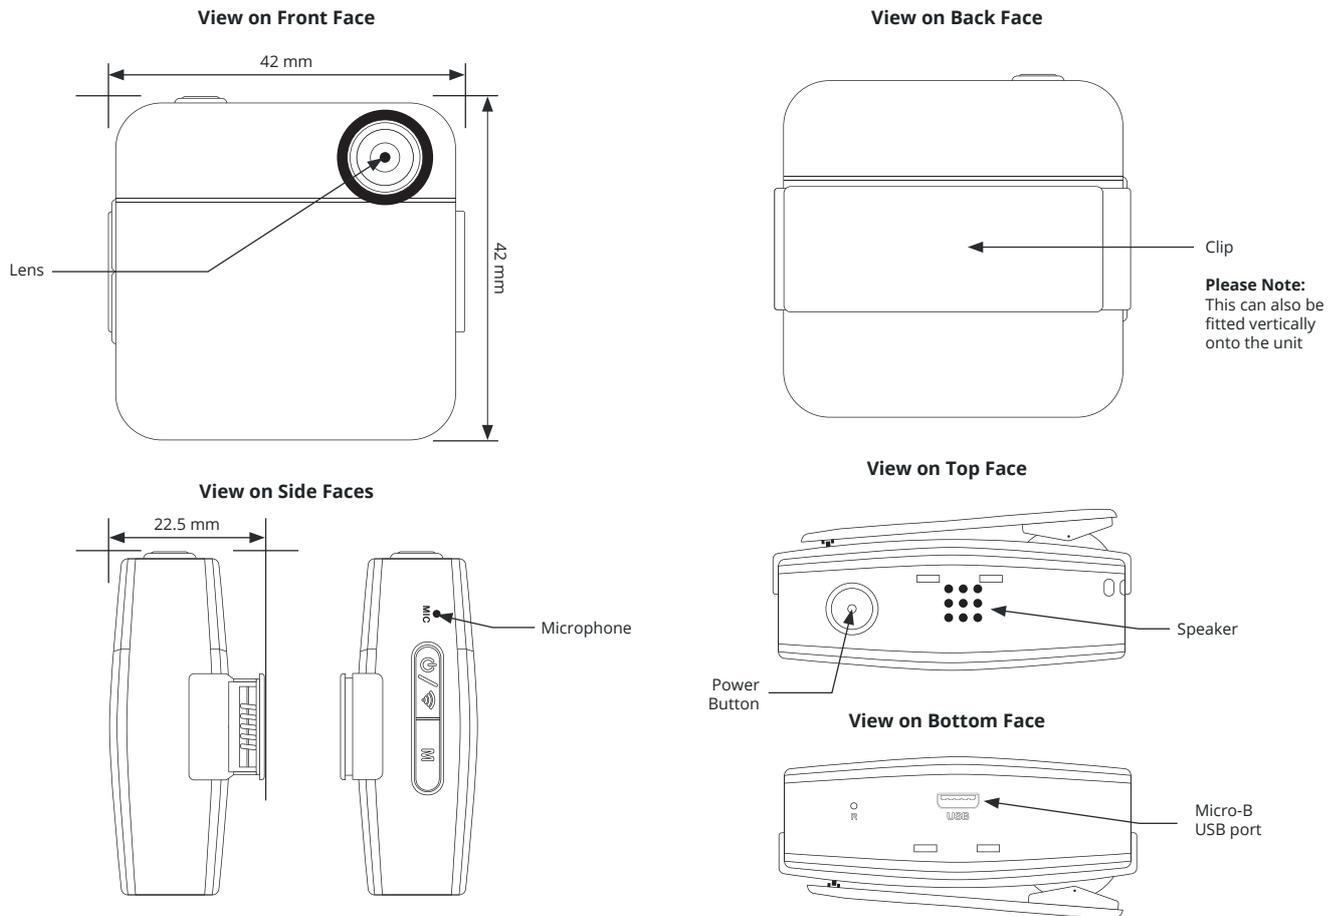

This device is Edesix's smallest and most discreet camera, meant for single incident recording. The VT-50 is a low maintenance solution, requiring minimal attention, and can remain on standby for up to 6 months prior to incident recording.

The VT-50 is the ideal device for site security, as it can be integrated to existing Video Management Systems (VMS), ensuring an all-encompassing security solution for employees, security personnel and business assets.
